1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended by rewriting claim 13 as follows:

13. An apparatus according to claim 10 ~~12~~, wherein the vehicle manufacturer is determined based on the scanned data related to the wheel constituent parts by accessing a data bank containing information related to the wheel constituent parts and associated vehicle manufacturer.

This amendment is to correct an obvious typographical error that left claim 13 dependent from cancelled claim 12. In addition to the obvious nature of the error, the remarks filed 14 September 2006 state, on page 10, in lines 14-15, that claim 13 was intended to be dependent from claim 10.

2. The terminal disclaimer filed on 14 September 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent that may issue from copending application 10/765,207, has been reviewed and is accepted. The terminal disclaimer has been recorded. The acceptance of the terminal disclaimer has overcome the obviousness-type double patenting rejection of the previous office action.

3. The following is an examiner's statement of reasons for allowance:

The independent claims have been amended to include that the first and second sets of sensor devices are mounted on the frame and on the wheel guard hood respectively of a wheel balancing machine. The remarks filed 14 September 2006 argue that the references "fail to specifically describe the *unique spatial arrangement and locations of the parts ...*" (page 10, lines 3-4; emphasis in original; see also page 10, lines 8-9 of the remarks). Thus independent claims 1 and 10 are allowable, as are dependent claims 3-9 and 13 for at least the reason of their dependencies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
